

ARYA YUVA MANDAL CAR WASH SEVA EVENT SUNDAY APRIL 14, 2019

On the chilly morning of April 14th (Sunday), AYM (Arya Youth Mandal) students and parent volunteers rose up bright and early in order to set about on a bold task: washing cars.

The AYM car wash seva is an event that attracts almost all of the members every year with the avid participation and excitement of working alongside friends. Although it had been a large success last year, this did not define the standards for this year, as all the students agreed that they should raise more donations than they had ever before.

With all the volunteers pitching in with different supplies and equipment, stations were soon established in order to keep the car line efficient- vacuuming, soaping, washing, and drying. As one car left, another one drove in, yet laughter still stayed on the air as everyone worked diligently to get the job done. The originally brisk morning had turned quickly into a bright and sunny day, and through this, the volunteers were able to bond through this meaningful yet fun task.

Sure enough, with the amount of preparation and planning put in this year, a record amount of \$1170 was raised by the AYM through the several car washes and gracious donations. Every student who took part learned the importance of working with their peers, and this definitely showed through the amazing work that was put in. It is with no uncertainty that the AYM will be back next year to raise even more money for another great cause, and most importantly, wash more cars!
